PROFESSIONAL SUMMARY

Full-stack web developer passionate about building practical web applications that solve real-world problems. Currently working as a Contractual Web Developer at UCSI University Bangladesh Branch Campus, developing, deploying, and maintaining production applications. Continuously improving my skills through real-world projects, problem-solving, and modern technologies, with the long-term goal of becoming a highly skilled software engineer focused on building scalable and impactful products.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer — UCSI University Bangladesh Branch Campus

May 2026 – Present

- Contributed to production web applications using Next.js, React, and JavaScript.
- Built REST APIs, authentication, CRUD functionality, and reusable components.
- Achieved faster issue resolution through systematic debugging and optimization.
- Contributed to production deployment and maintenance, improving application reliability.
- Worked with Git/GitHub and production deployment environments.
- Improved development efficiency with AI-assisted coding, debugging, and research.

TECHNICAL SKILLS

- **Frontend** : Next.js, React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Framer Motion
- **Backend** : Node.js, Express.js, REST APIs
- **Database** : MongoDB, MySQL, PostgreSQL
- **Authentication** : Firebase Auth, JSON Web Token, Auth.js
- **Tools & Technologies** : Git, GitHub, VS Code, Vercel, Chrome DevTools, Figma
- **AI** : ChatGPT, Claude Code, AI-assisted coding, AI-assisted Debugging & Refactoring
- **Soft Skills** : Teamwork & Collaboration, Leadership & Communication, Problem-solving.

PROJECTS

1. sumansubhan.com –Content Publishing Platform

Technologies: Next.js, JavaScript, Tailwind CSS, DaisyUI, MongoDB Atlas, Cloudinary, Auth.js, VPS, Nginx, PM2

- Developed and deployed a production content platform serving hundreds of daily visitors for poems, articles, songs, books, and photos.
- Built a secure admin dashboard with authentication and CRUD-based content management.
- Deployed and managed the application on a Linux VPS with MongoDB Atlas and Cloudinary integration.
- Implemented a responsive Bangla UI, SEO optimization, image optimization, and reusable components.
- [Live Link](#) | [Source Code](#)

2. BD Telecom Icons (NPM Package)

Technologies: React, JavaScript, SVG, npm, GitHub

- Developed an open-source React icon library featuring Bangladeshi telecom operator icons, achieving 300+ monthly npm downloads.
- Converted SVG assets into reusable React components with customizable size, color, className, and SVG props.
- Structured the library for tree-shaking and easy integration into React projects.
- Maintained versioning, package publishing, and documentation through GitHub and npm.
- [NPM Package](#) | [Source Code](#)

3. Personal Expense Tracker

Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS, Framer Motion, Firebase Auth, JWT

- Developed a full-stack personal finance management application to track income and expenses.
- Implemented secure authentication and protected routes using Firebase Authentication and JWT.
- Built features for adding, updating, deleting, and categorizing transactions.
- Designed interactive dashboards with real-time expense summaries and financial insights.
- Created a fully responsive and user-friendly UI using Tailwind CSS.

CERTIFICATIONS

Web Design and Development (Level 3)

[Certificate Link](#)

National Skills Development Authority (NSDA), Bangladesh

- Successfully completed the nationally recognized competency-based certification in Web Design and Development.
- Gained practical knowledge in frontend and backend development, databases, responsive design, and software development best practices.

COMPETITIVE PROGRAMMING

- Solved 170+ programming problems on Beecrowd.
- Participated in the Unlock the Algorithm Programming Contest, achieving a Top 1% standing among 1500+ participants.
- Strengthened problem-solving, logical thinking, debugging, and algorithmic skills through consistent practice.
