Professional Summary

Frontend Developer with hands-on experience building responsive and user-friendly web applications using React, JavaScript, and Tailwind CSS. Skilled in API integration, authentication systems, and modern UI development. Seeking a frontend development role where I can contribute to impactful projects, collaborate with dynamic teams, and continuously grow as a professional.

Technical Skills

- **Frontend** : React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend** : Node.js, Express.js, PHP, MongoDB, MySQL
- **Tools & Technologies** : Git, GitHub, VS Code, Vercel, Surge, Chrome DevTools, Figma
- **Other Skills** : REST API Integration, Firebase Authentication, JWT Auth, Responsive Web Design, Component-Based Architecture
- **Additional Languages** : C, Java, Python, Dart
- **Interpersonal Skills** : Teamwork & Collaboration, Leadership & Communication, Problem-solving

Projects

1. Job Portal

Technologies: React, Node.js, Express.js, Tailwind CSS, REST API, Firebase Auth

- Developed a full-stack job portal connecting job seekers with employers.
- Implemented authentication and role-based access control for secure user management.
- Built features for job posting, application submission, and application tracking.
- Designed a responsive and modern UI using Tailwind CSS.
- [Live Link](#) | [Client Code](#) | [Server Code](#)

2. News Portal

Technologies: React, Firebase Authentication, REST API, Tailwind CSS

- Built a dynamic news platform with category-based filtering and protected routes.
- Integrated external APIs to display real-time news content.
- Implemented user authentication using Firebase.
- Designed a clean and responsive interface for improved readability.
- [Live Link](#) | [Client Code](#)

3. Book Vibe

Technologies: React, REST API, Tailwind CSS

- Built a dynamic book browsing platform with React and API integration for book data
- Integrated APIs to fetch and display book data dynamically.
- Designed a responsive interface to enhance user experience.
- Built reusable components to improve maintainability and performance.
- [Live Link](#) | [Client Code](#)

4. PH Tube

Technologies: JavaScript, HTML, Tailwind CSS, REST API

- Developed a video browsing platform that dynamically loads videos from an API.
- Implemented category filtering, search functionality, and sorting features.
- Built a responsive layout using Tailwind CSS for better usability.
- Optimized UI interactions for a smoother user experience.

Education

Bachelor of Science (BSc) in Computer Science & Engineering

Daffodil International University

Passing Year: 2025

CGPA: 3.40/4.00

Higher Secondary Certificate (HSC)

Qadirabad Cantonment Sapper College

Passing Year: 2020

GPA: 5.00/5.00

Secondary School Certificate (SSC)

Saint Louis High School

Passing Year: 2018

GPA: 5.00/5.00

Languages

- English (Professional proficiency)
- Bengali (Native)
- Hindi (Conversational)

Learning & Interests

Currently improving skills in:

- Next.js
- TypeScript
- Advanced React Patterns
- Performance Optimization
- Modern UI Animation.
